NUMANTIA HAS BAD WEATHER

River Still Rising and is Expected to Reach 19-Foot Mark Next Week—African Monarch Sails From San Francisco Monday for the Columbia.

While bound from the Columbia on her last voyage the Oriental liner Numantia, which arrived from Hongkong and way ports last night, was forced to battle with a storm for three days, and she emerged in a badly battered condition.

Her starboard lifeboat was struck by a comber and smashed into splinters. The fragments were swept overboard. The great iron plates forming the sides of the engine house were caved in as though they had been made of matchwood; ventilators, funnels and skylights were broken, and much other damage of a minor nature was done. The Numantia was about 900 miles off

the mouth off the Columbia when she ran into a fierce gale. When the steamer lay in the trough of the sea a mountainous wave came on board and swept everything before it. It was in the afternoon, and fortunately no one was out on deck. The wave seemed to reach almost to the tops of the masts. With the breaking of the skylights the engine room were partially flooded, and it was feared the fires would be extinguished.

Captain Feldtman is again in command of the Numantia. She brought a valuable 3000-ton cargo, and the work of discharging the freight has been started. Gunnies, sugar, peanuts, matting, curios, Chinese groceries and a few firecrackers make up the cargo.

Because of the high water the British steamship Hyndford could not get alongside the bunkers, and was forced to take coal from lighters out in the middle of the stream. At the present stage of the river the hatches of the ship are higher than the chutes of the bunkers. Loading fuel from lighters will delay the steamer a day or two. An effort is being made to have her ready to leave down by Monday. She has a full cargo of flour for Dalny and other North China ports.

On Monday the steamship African Monarch will sail from San Francisco for the Columbia to receive a cargo of lumber for the Orient. She is expected to arrive in the river Thursday morning.

IT MAKES A DIFFERENCE.

It makes all the difference in the world to the convivial man where, and what, he drinks. Most men desire beauty and cleanliness, and handsome appointments in the saloon they patronize regularly, as well as the essential pre-requisite of genuine wines and liquors that are served to them, and these things are so particularly and properly conspicuous at Otto Sund's elegant resort, the Commercial, at No. 509 on the street of that name that they account thoroughly for the fixed and splendid custom he enjoys. There is nothing allowed to pass his counter but the best and choicest in every department of indulgence, and the service behind it all, is the most pleasing and satisfying in the city.

For The Little People.

Every parent in this city should investigate, at once, the new and appreciable shoe for the youngsters, at Charles V. Brown's Commercial street house. They are called the "E. C. Scuffer" and are the very epitome of good wear and real comfort. They are going like wild-fire and the kids themselves are after them because they look so "comfy."

If a man knows anything of his own anatomy he must be aware that his stomach is a magnificent organ and entitled to the utmost consideration; knowing that he will eat at the Palace when he can conserve its safety and comfort, by eating only the best cooked, best served and most compensating meal in the city of Astoria, day, or night, it is always the same, and the Palace habit is one that pays to acquire. Arthur Smith is a master of the art of preparation and service, of all things edible.
